

# The best totally automatic, domed satellite television antenna for stationary use!

## TracVision® R4 makes “fold-down” antennas obsolete!

Introducing TracVision R4, a totally automatic, DVB-compatible, domed satellite TV antenna system for stationary use on vehicles throughout Europe. Now you can choose a satellite television antenna that provides the convenience of a domed system as an alternative to an old-fashioned “fold-down” unit.

Stationary users now have access to many of the same exciting features offered by KVH's deluxe in-motion TracVision R5.

With its attractive dome and automatic satellite acquisition, TracVision R4 offers unmatched convenience and access to DVB-compliant European TV satellites. Simply park your vehicle, turn on the system, sit back, and enjoy hundreds of channels of satellite TV entertainment and music with CD-quality sound. You will never again need to worry about cranking up the antenna, locating and tuning in the satellite of your choice, or forgetting to lower the antenna before you pull out of your parking space. Safe under its dome, the TracVision R4 antenna is always ready to find your chosen satellite quickly and automatically, with just a flip of a switch!

## TracVision R4 Owners Enjoy:

- Movies, news, sports, and music from a wide range of satellites, including Astra, Hotbird, and Hispasat.
- Built-in DVB® decoder guarantees positive satellite identification and tracking.
- Housed in a stylish weatherproof dome that you never need to fold down.
- Completely automatic system and the fastest satellite acquisition available!
- Easily upgraded for in-motion tracking.
- Backed by an extensive international service and support network and 2-year parts and 1-year labour warranty.
- Built by the world-leading manufacturer of mobile satellite antenna systems.

### Keeping Track of Your World

*TracVision R4 is fully compatible with high-speed Internet services now available via select television satellite services.*

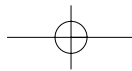

### Easy Access to Entertainment

*Simply flip the switch and TracVision R4 automatically finds the satellite of your choice.*

### Convenience and Safety

*The TracVision R4 dome protects the antenna from wind and weather while eliminating the need to “stow” the system for travel.*

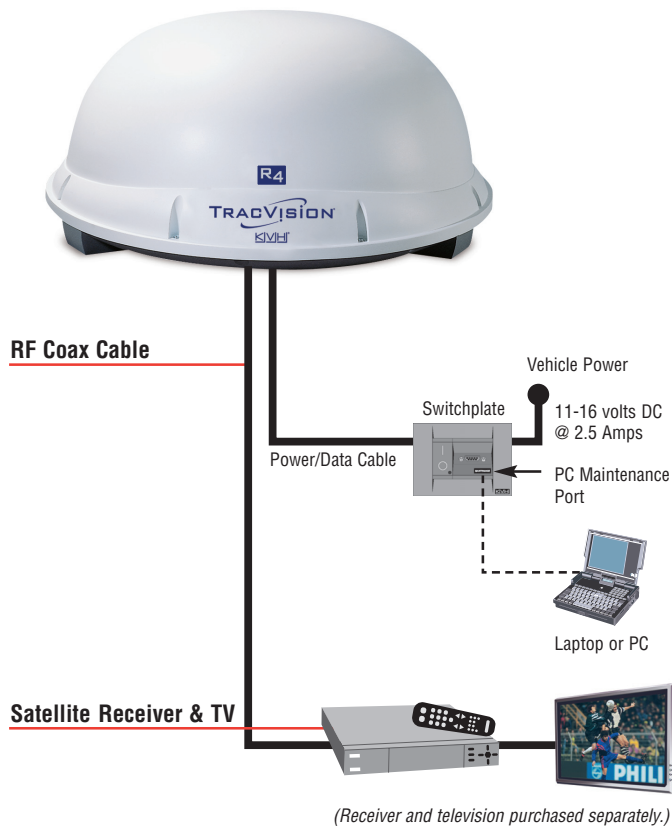

## Company Background

KVH Industries is the world's leading provider of mobile satellite television and communications antenna systems. With more than 125,000 mobile satellite antennas sold, KVH has supplied more in-motion satellite TV and communications systems for mobile applications than any other manufacturer in the world. KVH satellite products are so well received that they have won 16 National Marine Electronics Association Best Product awards and the prestigious General Motors Design Award. Headquartered in Rhode Island, U.S.A., KVH serves recreational, commercial, and military customers through its worldwide distribution channels.

## Technical Specifications

### TracVision R4 Antenna

### Physical

Power:	11-16 VDC @ 2.5 amps nominal, 3.5 amps peak
Dimensions:	81 cm diam. x 38 cm high
Weight:	15 kg
LNB:	Dual Output
Acquisition:	Better than 60°/sec
Maintenance Port:	9600 bps, 8,N,1, EIA, RS-232
Cabling:	10 m power/data, 10 m RF coaxial

### Pointing System

Elevation Range:	15° to 75°
Azimuth Range:	720 degrees
Position Repeatability:	0.1 degrees

### Environmental

Operating Temperature:	-25°C to +55°C
Storage Temperature:	-40°C to +85°C
Humidity:	To 100 percent
Warranty:	2 years parts, 1 year labour

### TracVision R4 System

Part Number: 01-0267-04

- International service and support network
- PC-based diagnostics
- Works with all brands of DVB-compatible receivers
- TracVision R4 meets CE marking requirements
