

Introducing TracVision® RV1

Ultra-compact Antenna for RVs, Motorhomes & Coaches

Big fun in a small package!

Key Features & Attributes

- Fast, reliable, and automatic in-motion DVB® satellite acquisition and tracking
- KVH's exclusive RingFire™ technology provides outstanding signal strength even in poor weather
- No cable wrap – for continuous, uninterrupted tracking
- Single-cable installation
- Ultra-quiet Whisper Drive™ motor technology for quiet operation

World's Smallest & Lightest Antenna!

KVH's ultra-compact TracVision RV1 is the smallest and lightest in-motion satellite TV system on the market, bringing you premium satellite TV entertainment throughout the UK. Enjoy standard-definition and high-definition programming from Freesat and Sky TV, whether you're parked or cruising down the motorway. Thanks to KVH's RingFire technology, the RV1-series offers a 32 cm diameter antenna with the highest gain in its class, delivering crystal-clear satellite TV programming wherever you go, even in poor weather. Best of all, the single-cable design makes installation a snap!

Get your favourite satellite TV programs from Freesat or Sky TV on the road!*

- 200+ channels of digital satellite TV and music from Freesat or Sky TV's Ku-band services
- Compatible with HDTV programming
- In-motion operation with rapid satellite acquisition
- KVH Whisper Drive for ultra-quiet operation
- With exclusive NEW IP-enabled TV-hub for setup, easy operation, and diagnostics, as well as wireless control and status page
- Single cable design
- DVB-S2 tracking for current and future satellite broadcast standards

**Television, satellite decoder and service subscription not included.*
